

CONSTRUCTION SKILLS PRE- EMPLOYMENT PROGRAMME.

HAVE YOU CONSIDERED A CAREER IN CONSTRUCTION AND ENGINEERING?

If you have then it might start here! We are looking for anyone who would like to start a career in construction and engineering. No previous experience is required, and we'd love to hear from you.

Programme overview

To get your start in Engineering Construction, we are launching a new 3-week training programme to learn new skills and gain a certificate in Construction Skills. Successful completion of this programme could lead to the opportunity of future employment with local construction contractors and businesses in the industry. The training will be delivered by Focus Training, an accredited ECITB training provider, at the West Somerset Community College Training centre.

Is this for me?

Don't be put off for thinking this isn't for you. We are very keen to hear from people of all ages, sexes and backgrounds. What have you got to lose?

What will I learn?

Core Activity base elements;

**Abrasive Wheels
Manual Handling
Low Risk Confined Space
Working at Height
Fire Watcher
Client Contractor National Safety
Group Passport (CCNSG)
CITB Health & Safety Test**

General Engineering elements;

**Working Safely with Hand Tools
Working Safely with Power Tools
Working Safely with Equipment**

How much will it cost me?

Nothing, the programme is free.
